

3RD IBSE INTERNATIONAL SYMPOSIUM

CLINICAL GENOMICS TO SYSTEMS MEDICINE: Computational Approaches for Transforming Healthcare (VIRTUAL)

1 - 4 February 2022

We bring biomedical scientists, computational biologists, and data scientists to present and discuss the latest developments in various omics technologies transforming clinical and translational research. A key focus will be novel techniques, methods and algorithms to dissect omics data at multiple levels, enabling a deeper understanding of complex human diseases.

SPEAKERS

Anshul Kundaje
Stanford University, US

Julien Gagneur
TUM Munich, DE

Samsiddhi Bhattacharjee
NIBMG Kolkata, IN

Giriraj Chandak
CCMB Hyderabad, IN

Manikandan Narayanan
IITM Chennai, IN

Shweta Ramdas,
Azim Premji University,
Bengaluru, IN

Irene Papatheodorou
EMBL-EBI Cambridge, UK

Maria Secrier,
University College London,
UK

Sridhar Sivasubbu
IGIB New Delhi, IN

Irit Gat-Viks
Tel Aviv University, IL

Nikolai Slavov
Northeastern University,
US

Thangaraj K
CCMB Hyderabad, IN

Jason Pitt
CSI Singapore, SG

Oliver Stegle
DKFZ Heidelberg, DE

Vijay Tiwari
Queens University Belfast, UK

Joshua Millstein
University of
Southern California, US

Rithambhara Singh
Brown University, US

Xia Yang
University of California
Los Angeles, US

REGISTRATION FEE :

Student/Postdoc : ₹3,000 (\$40) • Faculty : ₹6,000 (\$80) • Industry : ₹12,000 (\$160)
